DICOM Correction Proposal Form

Correction Number CP-89	
Log Summary: Overlay Origin	
Type of Modification: Clarification	Name of Standard PS 3.3, 3.6
Rationale for Correction: More explanation is needed for overlay origin.	
Sections of document affected: See each section below	
Correction Wording: See below.	

PS 3.3, make the following additions to Table C.9-2

Overlay Origin	(60xx,0050)	1	Location of first overlay point with respect to pixels in the image, given as row\~~ and~~ column. ~~Rows and columns are numbered from 1. Row is the vertical offset and column is the horizontal offset.~~ The upper left pixel of the image has the coordinate 1\1 Column values greater than 1 indicate the overlay plane origin is to the right of the image origin. Row values greater than 1 indicate the overlay plane origin is below the image origin. Values less than 1 indicate the overlay plane origin is above or to the left of the image origin. Note: Values of 0\0 indicate that the overlay pixels start 1 row above and one column to the left of the image pixels.

PS 3.6 Section 6 Change Origin (60xx,0050) to Overlay Origin

(60xx,0050) Overlay Origin SS 2
