

# DICOM Correction Proposal

Status	Final Text
Date of Last Update	2016/01/19
Person Assigned	Harry Solomon
Submitter Name	Harry Solomon
Submission Date	2015/03/19

Correction Number	CP-1482
Log Summary: Correct PS3.18 RFC references	
Name of Standard	PS3.18 2015c
Rationale for Correction: Some references to the HTTP/1.1 RFC are incorrect following the replacement of RFC 2817 by RFCs 7230-7235. The original draft for the Web Services referenced RFC 2817, and this was editorially replaced in Final Text by RFC 7230, but the actual correct reference should be RFC 7233.	
Correction Wording:	

## 6.5.5.1 Request

The specific Services resource to be used for the RetrieveBulkdata action shall be as follows:

...

- Headers
  - ...
  - Range
    - See RFC ~~7230 Section 14.35~~7233 Section 3.1. If omitted in the request the server shall return the entire bulk data object.

### 6.5.5.2.1 Bulk Data Response

• ...

- If the Range header is specified in the request, the server shall return only the specified bytes of the bulk data object. See RFC ~~7230 Section 14.35~~7233 Section 4.

## 6.7.1.2 Response

...

If the number of results exceeds the maximum supported by the server, the server shall return the maximum supported results and the response shall include the following HTTP/1.1 Warning header (see RFC ~~7230 Section 14.46~~7234 Section 5.5):

Warning: 299 {SERVICE}: "The number of results exceeded the maximum supported by the server. Additional results can be requested."

### 6.7.1.2.1 Matching

...

If the "fuzzymatching=true" query key/value is included in the request and it is not supported, the response shall include the following HTTP/1.1 Warning header (see RFC ~~7230 Section 14.46~~7234 Section 5.5):

Warning: 299 {SERVICE}: "The fuzzymatching parameter is not supported. Only literal matching has been performed."
