Correction Number	CP-1501
Log Summary: Add floating point pixel data to list of bulk data attributes	
Name of Standard	PS3.4 2015c
Rationale for Correction:	Supplement 172 (Parametric Map Storage) introduced two new attributes for floating point pixel data, i.e. Float Pixel Data (7FE0,0008) and Double Float Pixel Data (7FE0,0009). Although these attributes can also carry huge amounts of pixel data, they are not listed in the table “Attributes Not to Be Included in Instances Sent” for the Composite Instance Retrieve Without Bulk Data SOP Classes.
Correction Wording:	

*Change PS 3.4 Section Z.1.3*
