Correction Number CP-1774

Log Summary: Make code meaning of Great Saphenous Vein consistent

Name of Standard
PS3.16

Rationale for Correction:
CID 3010, CID 3607 and Table L-1 use Code Meaning 'Saphenous vein' for Code Value T-49530, not 'Great saphenous vein', also used in CID 12110.

The preferred name in SNOMED is 'Great saphenous vein', though 'Saphenous vein' is a synonym, yet there is a specific concept for 'saphenous vein structure': SCT:362072009 SRT:T-4940B UMLS:C0036186 .

Use the preferred name 'Great saphenous vein' for T-49530 throughout, use the more specific UMLS mapping (C0392907), and add T-4940B where missing.

[Ed.Note.: Add preferred UMLS to automatic mapping in publishing pipeline.]
