

# DICOM Correction Proposal

STATUS	Final Text
Date of Last Update	2014/06/27
Person Assigned	Andrei Leontiev
Submitter Name	Harry Solomon
Submission Date	2013/09/19

Correction Number	CP-1341
Log Summary: Add Series Purposes of Reference	
Name of Standard PS 3.16 2013	
Rationale for Correction Certain image processing operations that result in a derived Series and Images use one or more source Series (as a whole) for the derivation, so Source Image Sequence (0008,2112) is not appropriate, but Related Series Sequence (0008,1250) is appropriate. However, there is no defined code for "Source <u>series</u> for image processing operation" comparable to (121322, DCM, "Source <u>image</u> for image processing operation").	
Correction Wording:
