Omission in Retire Reference Print

Status: new

**DICOM Correction Item**

Tracking Information - Administration Use Only	
Correction Proposal Number	CP-167
STATUS	new
Date of Last Update	March 21, 1999
Person Assigned	Jim Finch – jefinch@imation.com
Submitter Name	Dave Best
Submission date	March 21, 1999

Correction Number CP-167	
Log Summary: Omission in Retire Reference Print	
Type of Modification: Correction	Name of Standard PS 3.3-1998
<p>Rationale for Correction:</p> <p>Supplement 35 Retired Reference Print. It also should have eliminated the link in Figure 7-2b between Image Box IOD and Image IOD. The only two Image Box IODs left are Basic Grayscale and Color Image Box IODs and they contain the pixel data rather than referencing and Image IOD.</p> <p>Proposed Solution:</p> <p>In Figure 7-2b, remove the link (1-n References 1) between Image Box IOD and Image IOD.</p>	
<p>Sections of document affected:</p> <p>See below</p>	
Correction Wording:	

**Figure 7-2b**
