Elekta	Jim Percy, Alt. Voting
Elekta	Hugo Gratama van Andel, Observer
RaySearch	Marcus Bergman, Observer
Varian	Michael Fabrizio, Observer
Varian	Kari Jyrkkälä, Alt. Voting
Varian	Rebecca Park, Alt. Voting

1. Administrative

- Welcome and roll call: the teleconference was called to order and a quorum was present.
- Antitrust and patent rules: DICOM antitrust and patent statement was reviewed.

- Agenda review and approval: the agenda was reviewed and approved.
- Approval of minutes from 2021-12-10: the minutes were reviewed and approved, and two action items remain open:
 - **Action:** Jim to bring up a CP to WG-07 for Tag (300C,00F0) which needs a better description of what it's for.
 - **Action:** Group to research/compile some PDR treatment record examples.

2. New clinical member

- At the IHE-RO meeting last week, a physicist from Germany volunteered to join the DICOM group. The group **agreed** it would be good to have more clinical people on future calls.

3. Display questions on IHE-RO TDRC and TPPC Brachy Profiles

- New IHE Trial Implementation Connectathons are being setup. It is very difficult to predict when implementations will be ready. IHE won't start incorporating these profiles into their framework until vendors are implementing it and there is a Trial Implementation Connectathon, so it will be in limbo for a few years during development.
- The group continued discussion on version 2.9 of the TDRC profile. This document can be accessed in Teams>WG-07 Brachy>IHE-RO>Files. The remaining open action items were reviewed.

4. Next Tcon: the next teleconference will take place on March 11, 2022 at 8:00-9:30am US EST. Agenda topic: TPPC review with new clinical member

5. Adjournment: the teleconference was adjourned at 9:22am US EST.
