Methodology	DICOM SR to FHIR- DTID- 1410- **Action:** to remove extra page on this topic. Laterality: TBD- questions: on 1410 and 1411- **Action:** Review these offline. SNOMED CT codes question on whether these expired SNOMED codes for bodysite laterality value will be used. (trying to figure this out) FHIR-23866- item - Laterality VS with inactive concepts (has not been applied but seems to be the correct solution). https://dicom.nema.org/Dicom/News/September2017/docs/sups/sup200.pdf -We will be doing an implementation guide for DICOM SR to FHIR. Have some ideas of what to discuss in the document from Sup.		
	FHIR Roadmap review- There is a delay of FHIR R5 due to necessity for additional QA work prior to ballot. https://onfhir.hl7.org/2022/02/28/soliciting-feedback-concerning-the-roadmap-for-fhir-r5/ II supports moving forward. There are other groups depending on this. Jonathan Whitby communicated this to the FMG.		
	One member heard that National Eye Institute wants to promote DICOM further. Items on DICOM SR or specific TID in this discussion would be of interest for this group.
