

DICOM Correction Item

Correction Number	CP-589
Log Summary:	Add Verification Status to Encapsulated PDF
Type of Modification	Name of Standard
Addition	PS 3.3-2004 + Supplement 104
Rationale for Correction: A use case for encapsulated PDF requires the externalization of semantics about whether the encapsulated document is a verified report (and can be further distributed). The Verification Flag attribute from the SR Document General Module is added as Type 3 to the Encapsulated Document Module.	
Sections of documents affected PS 3.3-2004 + Supplement 104: Encapsulated Document Module	
Correction Wording:	

**Table C.YY-2
 Encapsulated Document Module Attributes**
