Correction Number	CP-696
Log Summary: Undefined Query keys on Study Level C-FIND / G-GET	

Type of Modification	Name of Standard
Correction	PS 3.4 – 2007

Rationale for Correction

Two query keys on Study Level for the C-FIND and C-GET needs to be corrected:
 	
1. Interpretation Author (4008,010C) is retired with Supplement 98, but are still listed as query key. The proposal is to remove this key from both tables.
 	
2. The Modalities in Study (0008,0061) is used as query key, but not definition of the key is not longer defined somewhere (according to CP071 it should be in Table C.4-5, but that table is not longer existing).
 	
    2. PS3.3, Table C.4-5 - Study acquisition module attributes
    Add one line in the table:
    Attribute Name Tag Attribute Description
    Modalities in Study (0008,0061) This attribute may take one or more of the values defined for Modality (0008,0060).
The proposal is to add the attribute to Table C.3-1.
