

DICOM Correction Item

Correction Number		CP-184
Log Summary: Clarify example of Defined Terms		
Type of Modification	Name of Standard	
Clarification by addition of items	PS 3.5 - 1999	
Rationale for Correction		
As of CP 148 clarifies that Interpretation Status ID is an Enumerated Value not Defined Term, yet it is used in PS 3.5 definition of Defined Terms as an example. Use Interpretation Type ID in the example instead.		
Sections of documents affected		
PS 3.5 6.3		
Correction Wording:		

Note: Interpretation **Status Type** ID (4008, ~~02100242~~) is an example of a Data Element having Defined Terms. It is defined to have a Value that may be one of the set of standard Values; ~~"CREATED," "RECORDED," "TRANSCRIBED," or "APPROVED"~~ **"REPORT"** or **"AMENDMENT"** (see PS 3.3). Because this Data Element has Defined Terms, other Interpretation **Status Type** IDs may be defined by the implementor.
