**1. Opening**

1.1. The meeting was called to order at 10:00 a.m. US ET.

- 1.2. The antitrust rules were reviewed, and DICOM patent policy as well.
- 1.3. The agenda was approved.

## 2. **2019 September Agenda:**

- 2.1. Agenda link: <https://confluence.hl7.org/display/IMIN/2019-09+WGM>

**Secretary Note:** Q4, Tuesday Sep. 17<sup>th</sup>, 15:30-17:00 local time, Infrastructure and Messaging is hosting II/WG-20 to discuss the FHIRcast transition from II to InM.

Since the HL7 CCOW work group was merged into the Infrastructure and Messaging in work group in 2010, the Technical Steering Committee (TSC) thinks that FHIRcast should be under the InM ownership not II/WG-20.

## 3. **Web sockets in FHIRcast**

- 3.1. Please click on the following link for details

<https://github.com/HL7/fhircast-docs/wiki/Websocket-proposal>

- Cleaning it up.
- Let's keep it in the wiki to avoid any issues with merging.
- Ballot comments need to be merging into specifications, and handed to HL7, (then goes to hl7.org) this will happen this summer.
- September focus on implementing Web sockets during the connectathon.
- Client – does this belong in Web sockets? It was decided to take this topic offline.

“The Client sends the acknowledgement JSON (success)

}
```

## 4. **FHIRcast**

- 4.1. FHIRcast ballot comment resolution ([Project 1392 FHIRcast: Application Context Synchronization in FHIR](#)).

- The following issues related to web sockets were addressed today:  
#248 – Resolved <https://github.com/HL7/fhircast-docs/issues/248>

## 5. **Imaging Study Resource**

REMINDER: If we want to bring it to normative stage 5, we need to be there by January next year, and do the testing at the connectathon. We need to organize the connectathon tracker item for it. Jonathan has volunteered to do the tracker. Time: 2019 September-2020 January.

- Nobody rejected/object.
- Time frame: 3 options:
  - SIIM next week (it is probably too late)
  - HL7 in September (it seems the best option)
  - HL7 February (it is held in Australia so attendance might be lower than usually)
- Jonathan volunteered to submit a tracker for testing if needed.
