1 CALL TO ORDER AND REVIEW OF ANTI-TRUST RULES AND DICOM PATENT POLICY

The meeting was called to order. Staff reviewed the Guidelines for Conducting NEMA Meetings and recorded attendance.

2 WELCOME/ATTENDANCE/INTRODUCTION

The attendance was taken.

3 REVIEW AND APPROVE AGENDA

The agenda was reviewed.

4 REVIEW MINUTES

Minutes of previous meeting were approved.
5  TOPIC ITEMS TO BE DISCUSSED

- (Feedback from WG-6- Check in during January meeting)

- FHIRCast-
  
  o **Vote during the meeting on publication request**- got 10 negative vote withdrawal. Have enough. Reviewing publication request. Need to make some capitalization and grammar-type items, and update the name of the page. Add Bas van den Heuvel to reviewers.

  Motion and second to pass publication request: 22-0-0.

  Next: Jonathan Whitby reviews publication request, FHIR management group (FMG) reviews and then it is published.

**January Connectathon**- scheduled a FHIRcast track. Thursday, Jan 13\(^{th}\) (in events): [https://confluence.hl7.org/display/FHIR/2021-01+FHIRcast](https://confluence.hl7.org/display/FHIR/2021-01+FHIRcast)

Next steps for FHIRcast: at some point, discuss web items

- **Dose report**- [https://confluence.hl7.org/display/IMIN/Dose+Summary+on+FHIR](https://confluence.hl7.org/display/IMIN/Dose+Summary+on+FHIR)

  Has been reviewed and now open for other groups to review. Given number 1678. Pharmacy group is presenting. Setting up a session with them in January WG meeting (Jonathan to review). Next step is to submit a project scope statement jointly with pharmacy.

- **Imaging reference**- (Brian Bialecki)- Brian made a few updates to the page. Scope changed to remove diagnostic report and add region. Frames-frame of enhanced CT instead of imaging study. Cleaned up examples to show why these changes were made, and not just use imaging study.

  Suggestion to add document reference-detail of why this does not work. Discussion that DICOM treats phantoms as patient. Will add a note in on how DICOM treats phantoms (as patients).

  **Action**: Brian Bialecki to make adjustments then the group can review.

- **SR to FHIR mapping** (Chris Lindop)-- Reviewed draft.

  **Action**: Next step is to build a table of an observation.

- **V2 to FHIR mapping**-Did not discuss.
