Antitrust Statement

Professional Associations, such as HL7, which bring together competing entities are subject to strict scrutiny under applicable antitrust laws. HL7 recognizes that the antitrust laws were enacted to promote fairness in competition and, as such, supports laws against monopoly and restraints of trade and their enforcement. Each individual participating in HL7 meetings and conferences, regardless of venue, is responsible for knowing the contents of and adhering to the HL7 Antitrust Policy as stated in §05.01 of the [Governance and Operations Manual \(GOM\)](#).

Management	<p>WG chair update- Jonathan Whitby's term ends at the end of the year and will put his name in to continue. Chris Lindop for now is not continuing in the Co-Chair position.</p> <p>Action: If anyone is interested in participating as Co-Chair, please reach out to Carolyn Hull or Jonathan Whitby. For Chris' position, they would serve as interim Co-Chair through 2024. Carolyn Hull to send out to the DICOM Community list.</p>

Management	<p>Argonaut SMART Imaging Launch: SMART Imaging Access-this work is continuing. Meetings are every Wednesday at 3:00PM US ET and details are in the link. One issue is that it raises ImagingStudy and not sure II has come up with a stance on how this should be created and updated. Should this be an update to Scheduled Workflow/IHE to say at some point this object needs to be maintained. Would this WG cosponsor an IHE submission? A: Potentially focus on this issue during an upcoming Connectathon. There is also a Radiology AI in practice demo at RSNA. We could discuss with RSNA during this meeting time. Possibly do a Connectathon test combined with the Argonaut SMART Imaging Launch. Also, XDSI is another place.</p> <p>https://confluence.hl7.org/display/IMIN/Study+Content+Notification+on+FHIR+-+Connectathon+28+Discussion</p> <p>Action: Jonathan will bring up at the Argonaut meeting suggesting Connectathon to discuss some options for testing.</p> <p>The Mobile Cross-Enterprise Document Data Element Extraction (mXDE) Profile combines MHD with the PCC Query for Existing Data for Mobile (QEDm) Profile to provide element level access to the medical information available in a Document Sharing exchange. More details can be found in the white paper on Document Sharing Health Information Exchange.</p> <p>MHD is part of IHE – IT-Infrastructure Domain and part of the IHE Document Sharing Health Information Exchange solution.</p> <p>https://profiles.ihe.net/ITI/MHD/index.html</p> <p>Note ITI is moving mXDE into IG format. Public-Comment later this week - http://build.fhir.org/ig/IHE/ITI.mXDE/branches/master/index.html</p>

Management	<p>Overview of current WG activity</p> <ul style="list-style-type: none"> • ImagingStudy- • ImagingSelection- now exists as a published resource. • IGs <ul style="list-style-type: none"> ○ DICOM SR to FHIR Observation- Jonathan Whitby will work on this. They will review with WG-6 during their June meeting, still on track to ballot in September. ○ Imaging ServiceRequest profile- have a Project Scope Statement. Next stage- submit scope, then can begin work. Bandwidth is a question on this. Will be universal realm. Motion to approve PSS and second. We are currently looking at January ballot for this. <p>Next meeting: Tuesday, May 16, 2023, 11:00AM US ET</p>
