Others (Observers & Alt-voting) Present:

<table>
<thead>
<tr>
<th>Represented by:</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACR</td>
</tr>
<tr>
<td>Blackford Analysis</td>
</tr>
<tr>
<td>DICOM Systems</td>
</tr>
</tbody>
</table>
1. **Opening**
   1.1. Welcome and roll call: the teleconference was called to order and a quorum was present.
   1.2. DICOM Antitrust and patent rules were reviewed.
   1.3. The agenda was reviewed and approved.
   1.4. The minutes from 2021-08-17 were reviewed and approved.

2. **Pickles security issue (Rob Horn)**
   2.1. Rob Horn joined the call to discuss Pickles, a security concern for potential inclusion into Supplement 224. Supply chain attacks are a driving concern. All forms of software are under intelligent attack by organized patient attackers. Pickles are one of those targets. This relates to DICOM with regards to SBOM access and related information (there are already standards for SBOMs), and integrity and inventory automation.

3. **Supplement 224: Service Discovery and Control (Brian Bialecki)**
   3.1 Brian reviewed the latest version of Sup224, which he plans to present to WG-06 in January 2022, in preparation for Public Comment. As mentioned on the last call, he spoke to OAM about POCs.
   3.2 The group discussed the security section to pick up where we left off with the Pickles discussion. It was decided that Brian will add a security discussion section to the Supplement draft and the group will continue to discuss this on the next call.

4. **Old or New Business:** none at this time.

5. **Next meetings – tcons:**
   5.1. Current schedule: First Tuesday of the month from 12:00-1:00pm US Eastern, unless schedule conflicts or additional calls are needed. Next calls:
       - December 7th
       - January 4th
       - February 1st
6. **Adjournment:** the call was adjourned at 1:02pm US ET.
