• Not discussed.

6. NEW BUSINESS
• Conformance – WG-31 to discuss inclusion of Capabilities Description in updated DCS template. Bill confirmed that Capabilities Description is required. References from Herve’s email to WG-27:

In old Part 18 (e.g. DICOM 2018d):

6.8 RS Capabilities Service

DICOM RS Capabilities Service defines a single transaction type which shall be supported by all implementations

a. RetrieveCapabilities

This transaction retrieves the parameters for services supported by the server.

In new part (e.g. DICOM 2019c):

8.9 Retrieve Capabilities Transaction

This transaction retrieves a Capabilities Description (see Annex H), which is a machine-readable description of the service(s) implemented by an origin server. All RESTful services defined by this Part of the Standard shall implement this transaction.

The Target Resource for this transaction is an origin server. The response contains a Capabilities Description, which describes the transactions, resources, representations, etc. that are supported by the service(s).

7. OLD BUSINESS
