Log Summary: Add Medical Subject Headings (MeSH) as Coding Scheme

Rationale for Correction:
The Medical Subject Headings are terms used in indexing medical documents (for example in PubMed) but have utility in their own right as concepts useful in DICOM objects, particularly for concepts not included in SNOMED or other coding schemes.

Add the HL7-defined symbolic name and OID for MeSH.

Correction Wording:

Add to PS 3.16:

<table>
<thead>
<tr>
<th>Coding Scheme Designator</th>
<th>Coding Scheme UID</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MDNS</td>
<td>2.16.840.1.113883.6.177</td>
<td>Universal Medical Device (UMD) Nomenclature System</td>
</tr>
</tbody>
</table>
| MSH                      | 2.16.840.1.113883.6.177 | US National Library of Medicine (NLM) Medical Subject Headings (MeSH)  
| NBD                      | 2.16.840.1.113883.15.2  | NASPE/BPEG Defibrillator Code  
PACE, 16:1776-1780, 1993 |
| ...                      | ...              | ...         |
