Correction Number CP-1424

Log Summary: Add Series entity present in Real-World Model but missing in Information Model figure

Name of Standard

PS3.3 2015a

Rationale for Correction:

Inexplicably, the DICOM Information Model (as opposed to the Real-World Model) does not contain the Series entity, and never has (not in 1993), despite the relevant figure having been extensively revised over time. Add it.

Correction Wording:
7 DICOM model of the real-world
