Update PS3.18 Section 7.2 as follows:

7.2 Multi-frame and Video Image Objects

7.2.1 Objects Included

In this category are all SOP classes defined in PS3.3 that are multi-frame or video image objects.

7.2.2 MIME Type Constraints

The Origin Server shall be able to send a response for the following MIME media types:

- WADO-URI and WADO-WS
  - application/dicom
- WADO-RS
  - application/dicom
  - application/octet-stream
  - application/dicom+xml
  - application/json
  - video/mp4

If the "contentType" query parameter is not present in the WADO-URI or WADO-WS request, the response shall contain an application/dicom MIME-media type.

The It is recommended that the Origin Server can optionally support the following MIME media types for WADO-URI and WADO-WS:
• video/mpeg
• image/gif

The it is recommended that the Origin Server can optionally support the following MIME media types for WADO- RS:

• image/dicom+jpx
• video/mpeg
• video/mp4
• video/H265

The Origin Server may also support other MIME media types.
