

DICOM Correction Proposal Form - Final Text

Tracking Information - Administrator Use Only	
Correction Proposal Number	CP-16
STATUS	approved - voting-3
Date of Last Update	02/22/95
Person Assigned	C. B. Stone
Log Summary: Basic Film Session Presentation-Addition of Sorter Bin Attribute	
Submitter Name Dave Best	Submission date 31 Aug. 1994
Type of Modification Omissions	
Name of Document Part 3: Image Object Definitions	Version Number PS C.13.1 1994
<p>Rationale for correction</p> <p>The introduction of Film Sorter equipment for processors requires addition of defined terms and values to the film destination table (i.e., it is now possible to route film to multiple destinations "after" the processor. The only defined destinations are currently MAGAZINE and PROCESSOR).</p>	
<p>Sections of document affected</p> <p>Table C.13.1-1</p>	
<p>Suggested Wording of Correction</p> <p>Change the attribute "Film Destination" (2000,0040) from Enumerated Value to Defined Term.</p> <p>Add the following text for this new Defined Term:</p> <p>"BIN_i = the exposed film is deposited in a sorter bin where "i" represents the bin number. Film sorter BINs shall be numbered sequentially starting from one and no maximum is placed on the number of BINs. The encoding of the BIN number shall not contain leading zeros."</p>
