

DICOM Correction Item

Correction Number		CP-35			
Log Summary:					
Type of Modification Inconsistency	Name of Standard PS 3.7 - 1993				
Rationale for Correction					
<p>The N-CREATE Protocol does not support empty data sets; however several SOP Classes (e.g. Film Session SOP Class) specify that the SCU usage is "U" for all its attributes (and hence the SCU is not required to supply any attribute as part of the N_CREATE Service Element)</p>					
Sections of document affected					
Tabel 10.1-5 Table 10.3.5-9					
Correction Wording					
<p>- Replace the "Attribute List" row in Table 10.1-5 by the following row:</p>					
<table><tr><td>Attriute List</td><td>U</td><td>U</td></tr></table>			Attriute List	U	U
Attriute List	U	U			
<p>- Replace the description of the Data Set Type field in Table 10.3.5-9 by the following text</p>					
<p>"This field indicates if a Data Set is present in the Message. This field shall be set to the value of 0101H if no Data Set is present; any other value indicates a Data Set is included in the Message."</p>
