

## DICOM Correction Item

Correction Number	CP-52
Log Summary: Wrong attribute placement in table (printing error)	
Type of Modification Errata	Name of Standard PS 3.3 - 1993
Rationale for Correction:  In Table C.3-4 "Visit admission module attributes" the attribute "Admitting Diagnosis Code Sequence" (0008,1084) is in the wrong place, not just before the attributes in the sequence.	
Sections of Document Affected: Table C.3-4	
Correction Wording:  Place the three attributes "Route of Admission", "Admitting Date" and "Admitting Time" directly after the sequence (after ">Code Meaning").
