

DICOM Correction Item

Correction Number	CP-74		
Log Summary: Add number of series related images in Series level keys			
Type of Modification	Name of Standard		
Minor Extension	PS 3.4 - 1993 and PS 3.6- 1993		
Rationale for Correction:			
<p>In the study root and patient root query models of the Query/Retrieve Service Class, series level queries do not specify the number of series related images as a return attributes related to each series. It proves useful for a Query SCU to know the number of images in a series before initiating a retrieve.</p>			
Sections of document affected:			
<ol style="list-style-type: none"> 1. PS 3.4, Table C.3-1 Additional query/retrieve attribute 2. PS 3.4, Table C.6-3 Series Level attributes for the patient root query/retrieve information model 3. PS 3.6, Section 6 Registry of DICOM data elements 			
Correction Wording:			
1. PS 3.4, Table C.3-1 Additional query/retrieve attribute			
Add the following entry:			
Attribute Name	Tag	Attribute Description	
Number of Series Related Images	(0020,1209)	The number of images in a series that match the Series level Query/Retrieve search criteria.	
2. PS 3.4, Table C.6-3 Series Level attributes for the patient root query/retrieve information model			
Add one line to the table:			
Description	Tag	Type	
Number of Series Related Images	(0020,1209)	O	
Add a note below the table:			
NOTE-- The Attribute Number of Series Related Images is an optional key. It is however recognized as a broadly needed key and return attribute which SCP are strongly encouraged to support.			
3. PS 3.6, Section 6 Registry of DICOM data elements			
Add the following entry:			
Tag	Name	VR	VM
(0020,1209)	Number of Series Related Images	IS	1
