

DICOM Correction Item

2

Correction Number	CP-94
Log Summary: Attribute usage when N-SET Attributes are the same as N-CREATE	
Type of Modification: Correction	Name of Standard PS 3.4
Rationale for Correction: In some cases, the Attributes that may be N-SET are the same as for N-CREATE. In this case, there is a simple statement to that fact. The usage for N-SET is not explicitly stated. The assumption is that the usage for N-SET is the same as for N-CREATE. This should be explicitly stated.	
Sections of document affected: See each section below	
Correction Wording: See below.	

4 **Make the indicated changes to the following sections.**

H.4.1.2.2.1 Attributes

6 ~~All Attributes of the Film Session SOP Class may be updated.~~
