

DICOM Correction Item

Correction Number	CP-1087
Log Summary: Update Foreword of all Parts	
Type of Modification	Name of Standard
Correction	PS 3 2009
Rationale for Correction	
The procedures of the DICOM Standards Committee, not NEMA, are now applicable.	
Further, there are many organizations involved in the evolution of DICOM, and it is no longer practical or necessary to enumerate some but not all, nor is it necessary to record the history in each part; the minutes of the DICOM Standards Committee are available publicly, as is the list of committee members.	
Sections of documents affected	
PS 3.1-3.18	
Correction Wording:	

Amend Forward to all Parts:

~~The American College of Radiology (ACR) and the National Electrical Manufacturers Association (NEMA) formed a joint committee to develop a standard for Digital Imaging and Communications in Medicine (DICOM). This DICOM Standard was developed according to the NEMA procedures of the DICOM Standards Committee.~~

~~This standard is developed in liaison with other standardization organizations including GEN TC251 in Europe and JIRA in Japan, with review also by other organizations including IEEE, HL7 and ANSI in the USA.~~
