

DICOM Correction Item

Correction Number		CP-113 (Final Text)
Log Summary:		
Type of Modification	Name of Standard	
Typo	PS 3.4 - 1998	
Rationale for Correction:		
<p>In section C.2.2.2.5 of DICOM Part 4 "Range Matching", a range is defined as: <date1>-<date2> or -<date1> or <date1>- or <time1>-<time2> or -<time1> or <time1>-</p> <p>As you are all aware the "Minus Sign" - is used as the "Range Indicator".</p> <p>In Annex K of DICOM Part 4 "Basic Worklist Management Service" (formerly known as Supplement 10) Table K.6-1 the attributes for the Modality Worklist Information Model are defined. Unfortunately the "Remark" for Tag (0040,0003) "Scheduled Procedure Step Start Time" states, that "\" should be used as the "Range Indicator", i.e. <July5\July7>. This remark implies a particular encoding, whereas in fact a hyphen is used with numeric date values. The "\" should be replaced by words.</p>		
Sections of document affected:		
Table K.6-1		
Correction Wording:		
<p>Change the description of Tag (0040,0003) within DICOM PS 3.4 Table K.6-1:</p> <p>“e.g. the date range "July 5\July 7" and the time range "10am\6pm" specifies the time”</p> <p>to</p> <p>“e.g. the date range July 5 to July 7 and the time range 10am to 6pm specifies the time”</p>
