

DICOM Correction Item

Correction Number	CP-114 (Final Text)
Log Summary: PS 3.10 Annex A erroneously labeled Normative	
Type of Modification: Typo	Name of Standard: PS 3.10 - 1998
Rationale for Correction: In "Contents" page ii Annex A is called "normative" as it is on top of page 21. But in line two of the text body it says: "This is not a normative Annex", which makes sense since an example should or could not be normative. One of the statements is wrong and should be corrected.	
Sections of document affected: Annex A	
Correction Wording: Change "Normative" to "Informative" in the heading and Table of Contents
