

# DICOM Correction Proposal

|                     |   |
|---------------------|---|
| STATUS              | Final Text  |
| Date of Last Update | 2012/08/22  |
| Person Assigned     | Bas Revet ( <a href="mailto:bas.revet@philips.com">bas.revet@philips.com</a> )              |
| Submitter Name      | Bas Revet, Harry Solomon ( <a href="mailto:harry.solomon@ge.com">harry.solomon@ge.com</a> ) |
| Submission Date     | 2012/01/05  |

|                                     |   |
|-------------------------------------|---|
| Correction Number                   | CP-1202   |
| Log Summary: Correct code for Liver |   |
| Name of Standard                    | PS 3.16 2011  |
| Rationale for Correction            | CP722 and CP1097 make clear that codes for anatomy should use SNOMED “structure of” rather than “entire” concepts. Correction is made to code for Liver in CID 4030. Note that PS3.16 Annex J already lists this replacement. |
| Correction Wording:                 |   |

*PS 3.16 Annex B*

**CID 4030      CT, MR and PET Anatomy Imaged**

**Context ID 4030**

**CT, MR and PET Anatomy Imaged**

**Type: Extensible Version: 20071104-20120822**
