

## DICOM Correction Proposal

STATUS	Final Text
Date of Last Update	2014/09/04
Person Assigned	Ulrich Busch ( <a href="mailto:ulrich.busch@varian.com">ulrich.busch@varian.com</a> )
Submitter Name	Ulrich Busch ( <a href="mailto:ulrich.busch@varian.com">ulrich.busch@varian.com</a> )
Submission Date	2013/12/20

Correction Number	CP-1360
Log Summary: Add Performed Procedure Step Comment to Module Definition	
Name of Standard PS 3.3 2013	
<p>Rationale for Correction:</p> <p>The attribute 'Comments on the Performed Procedure Step (0040,0280)' is part of PS 3.4, section CC.2.5.1.3 UPS Attribute Service Requirements. In that table, it is included in the Unified Procedure Step Performed Procedure Information Module.</p> <p>However, in module definition in PS 3.3, C.30.3 Unified Procedure Step Performed Procedure Information Module, that attribute is missing.</p> <p>In case of Modality Worklist it is also part of the module definition in PS 3.3, C.4.14 Performed Procedure Step Information.</p> <p>This CP adds the attribute to the module definition in PS 3.3, C.30.3 for consistency.</p>	
Correction Wording:	

*In PS 3.3 Section C.8.8.8 RT ROI Observations Module, Table C.8-44 RT ROI Observations Module Attributes, make the following updates to Type and Attribute Description of ROI Physical Property Value (3006,00B4):*

### **C.30.3 Unified Procedure Step Performed Procedure Information Module**

Table C.30.3-1 specifies the Attributes that describe the performance and results of a Unified Procedure Step (UPS).

**Table C.30.3-1  
Unified Procedure Step Performed Procedure Information Module Attributes**

Attribute Name	Tag	Attribute Description
Unified Procedure Step Performed Procedure Sequence	(0074,1216)	Details of the Procedure Step as performed. Zero or one item shall be included in this sequence.
>Actual Human Performers Sequence	(0040,4035)	<p>Human performers that are/were actually involved or responsible for performing the Procedure Step.</p> <p>Zero or more Items shall be included in this sequence.</p> <p>Note: Initially this list will be empty. Items may be added to the list at or after the status transition of the Procedure Step State (0074,1000) to "IN PROGRESS"</p>

>>Human Performer Code Sequence	(0040,4009)	Human performer that is involved or responsible for performing the Procedure Step. Only a single Item shall be permitted in this sequence.
>>>Include Code Sequence Macro Table 8.8-1		No Baseline Context ID is defined.
>>Human Performer's Name	(0040,4037)	Name of the human performer.
>>Human Performer's Organization	(0040,4036)	Organization to which the human performer is accountable for the activities in the Procedure Step.
>Performed Station Name Code Sequence	(0040,4028)	Names within the enterprise of the equipment that performed the Procedure Step. This name may be the same as the AE Title, but does not have to be. Zero or more Items shall be included in this sequence.
>>Include Code Sequence Macro Table 8.8-1		No Baseline Context ID is defined.
>Performed Station Class Code Sequence	(0040,4029)	Classes of the equipment that created the Procedure Step. Zero or more Items shall be included in this sequence.
>>Include Code Sequence Macro Table 8.8-1		No Baseline Context ID is defined.
>Performed Station Geographic Location Code Sequence	(0040,4030)	Geographic locations of the equipment that created Procedure Step. Zero or more Items shall be included in this sequence.
>>Include Code Sequence Macro Table 8.8-1		No Baseline Context ID is defined.
>Performed Procedure Step Start DateTime	(0040,4050)	Date and Time at which the Procedure Step started.
>Performed Procedure Step Description	(0040,0254)	Institution-generated description or classification of the Procedure Step that was performed.
<b>&gt;Comments on the Performed Procedure Step</b>	<b>(0040,0280)</b>	<b>User-defined comments on the Performed Procedure Step.</b>
>Performed Workitem Code Sequence	(0040,4019)	A sequence that conveys the type of procedure performed. Zero or more items shall be present in this sequence.
>>Include Code Sequence Macro Table 8.8-1		<i>Baseline Context ID is CID 9231</i> Note: This CID has generic workitems. An implementation may choose to define more specific, detailed workitems.
