

1	Status	Final Text
2	Date of Last Update	2015/03/23
3	Person Assigned	David Clunie
4		mailto:dclunie@dclunie.com
5	Submitter Name	James J Rogers
6		mailto:jr@coastalcg.com
7	Submission Date	2014/07/28

8	Correction Number CP-1435
9	Log Summary: Correct errors in State Diagram of Hosted Applications
10	Name of Standard
11	PS 3.19 2015a
12	Rationale for Correction:
13	Figure Figure 7.2-1 is not consistent with the content of Tables 7.2-1 and 7.2-2. Specifically:
14	• The figure contains "/Host.notifyDataAvailable()" in the transition between IDLE and IN PROGRESS.
15	• The figure contains "/Application.notifyDataAvailable()" in the transition between IN PROGRESS and COMPLETED.
16	• The figure contains "/Application.resumeProcessing()" in the transition between SUSPENDED and IN PROGRESS
17	• The diamond-shaped decision points are likely contained internal to IN PROGRESS and SUSPENDED states, respectively. These
18	decision points are not mentioned in the state diagram description.
19	• Table 7.2-2 mentions "notifyStatus()" and FATALERROR, for inbound transitions to CANCELED, but these do not appear on the
20	diagram.
21	References in the diagram to API calls not specifically mentioned in the table should be removed.
22	This CP updates the figure to correct these findings.
23	Correction Wording:

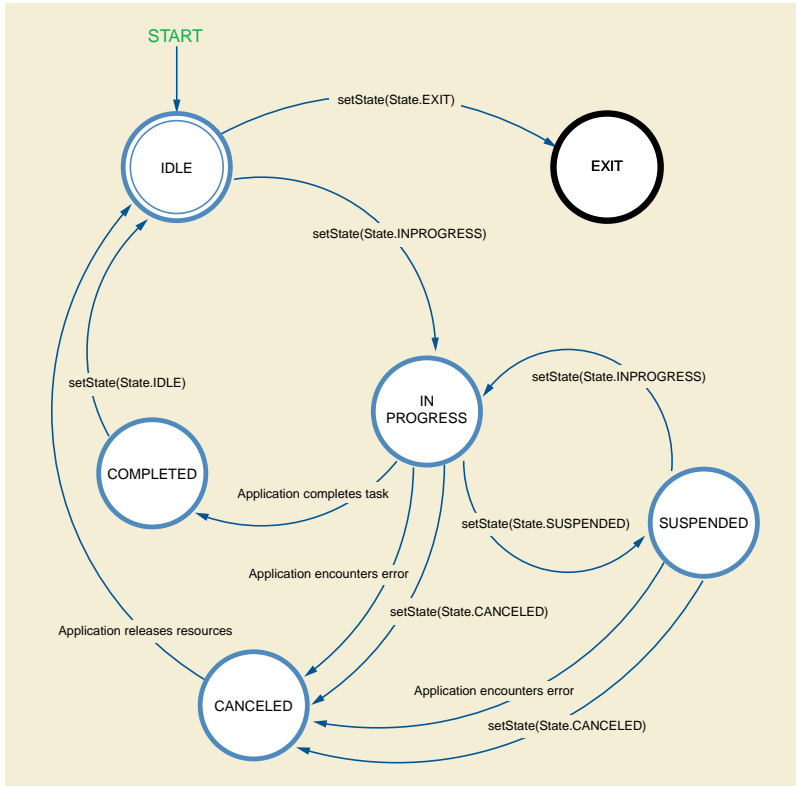

7.2 States

...

Replace the existing Figure 7.2-1 shown here:

with the new Figure 7.2-1 shown here:
