7	Submission Date	2016/11/21

8	Correction Number CP-1673	
9	Log Summary: Remove Version-specific UIDs from Confidentiality Profile Attributes	
10	Name of Standard	
11	PS3.15 2017b	
12	Rationale for Correction:	
13	Creator Version UID and Context Group Extension Creator UID are not "transient" UIDs that leak identifying information and which	
14	need to be removed or remapped, but rather are important for understanding the meaning of the scope that they defines, e.g., private	
15	raw data elements in Raw Data IODs.	
16	Correction Wording:	

Amend DICOM PS3.15 as follows (changes to existing text are bold and ~~strikethroughd~~ for additions and ~~struckthrough~~ for removals):
