

1	Status	Final Text
2	Date of Last Update	2023/01/19
3	Person Assigned	David Clunie
4		mailto:dclunie@dclunie.com
5	Submitter Name	David Clunie
6		mailto:dclunie@dclunie.com
7	Submission Date	2022/05/16

8	Correction Number CP-2235	
9	Log Summary: Deciduous dentition should use "structure of" concept, not "entire" concept	
10	Name of Standard	
11	PS3.16 2022e	
12	Rationale for Correction:	
13	While processing SNOMED code revisions and hyperlinking SNODENT codes to the ADA browser it was noticed that some of the	
14	deciduous dentition (CID 4019) uses "entire" rather than "structure of" concepts, which is inconsistent with pattern for other DICOM	
15	anatomical concepts in addition to being internally inconsistent within the context group.	
16	<i>[Ed.Note: Even though the numeric concept ID for "entire" concept was used, in some cases the SNOMED-RT ID was a reference</i>	
17	<i>to the structure of rather than entire concept, so does not change even though the hyperlink does.]</i>	
18	<i>[Ed.Note: A specific deciduous concept for mandibular right first molar tooth is not present in UMLS.]</i>	
19	<i>[Ed.Note: CRS RequestID #769609 for concepts 88824007, 65624003, 17505006, 43281008, 58646007]</i>	
20	Correction Wording:	

Amend DICOM PS3.16 as follows (changes to existing text are bold and underlined for additions and ~~struckthrough~~ for removals):

CID 4019 Primary Anatomic Structure for Intra-oral Radiography (Deciduous Dentition - Designation of Teeth)

Version: 2015031820230119

Table CID 4019. Primary Anatomic Structure for Intra-oral Radiography (Deciduous Dentition - Designation of Teeth)
