## 7.14.10 RT Treatment Session, RT Treatment Fraction

...

Partial treatments annotate RT Treatment Fractions, that are not completely performed for any reason (e.g. patient sickness, delivery device breakdown). The remainder of the RT Treatment **Session Fraction** is usually delivered at a later time. This remaining portion has the same fraction number as the one of the Partial Treatment **Session Fraction**. Further treatments will start a new RT Treatment Fraction with an incremented fraction number.
