Correction Number CP-2487
Log Summary: Clarify de-identification of Requesting Service
Name of Standard PS3.15 2025c
Rationale for Correction: Requesting Service was added to the General Study Module in CP 1722, so should now be indicated as being in a Standard Composite IOD. It is also a plain text string, so could be retained if cleaned, so include in Clean Descriptors Option.
Correction Wording:

*Amend DICOM PS3.15 as follows (changes to existing text are bold and **underlined** for additions and **~~struckthrough~~** for removals):*
