

### DICOM Correction Proposal Form

Correction Number CP-298	
Log Summary: Add template convention for Coding Scheme Version	
Type of Modification Clarification	Name of Standard PS 3.16
Rationale for Correction The template specification conventions do not provide a pattern for invoking a particular Coding Scheme Version.	
Sections of documents affected PS 3.16 Section 6.1	
Correction Wording:	

References to coded concepts take the following form:

EV or DT (CV, CSD, "CM")

e.g. an Enumerated Value with only CV, CSD, and CM defined is represented as follows: EV (CV, CSD, "CM"), for example EV (T-04000, SNM3, "Breast").

**If reference to a specific coding scheme version is required, it takes the following form:**

**EV or DT (CV, CSD [CSV], "CM")**

**e.g., DT (D3-81922, SRT [V1], "Aortic fistula").**
