

DICOM Correction Proposal Form

Correction Number CP-334	
Log Summary: Clarify need to create MPPS Discontinuation Reason	
Type of Modification Clarification	Name of Standard PS 3.4
Rationale for Correction Only attributes that are specified in a normalized SOP Instance at N-CREATE may later be updated through the N-SET. A note is added to remind users that if an application wishes to use the PPS Discontinuation Reason Code Sequence, it must be created during MPPS N-CREATE.	
Sections of documents affected PS 3.4 Section F.7.2.1.1	
Correction Wording: Add to Notes following Table F.7.2-1: Notes: 1. ... 2. ... 3. ... 4. ... <u>5. Only attributes that are specified in a SOP Instance at N-CREATE may later be updated through the N-SET. If an SCU wishes to use the PPS Discontinuation Reason Code Sequence (0040, 0281), it must create that attribute (zero-length) during MPPS N-CREATE.</u>
