DICOM Correction Item

Correction Number		CP-461
Log Summary: Correct inconsistency requirements for SCP Storage Service level 2 with Storage Commitment		
Type of Modification	Name of Standard	
Add private attributes to the SCP Storage service level 2 support	PS 3.4 2004	
Rationale for Correction		
Add the Private Attributes support for the SCP behaviour of the Storage service level 2. Since the Storage Commitment SCP behaviour for storage level 2, is including the Private attributes. See DICOM PS 3.4 Annex: J.3.3.1.2 "... <i>The SCP shall store the referenced SOP Instances in accordance with Level 2 as defined in the Storage Service Class (i.e. all Attributes, including Private Attributes)</i>).		
Sections of documents affected		
PS 3.4 Sections: B.4.1		
Correction Wording:		

4 *Add the private attributes support to SCP Storage Service level 2*

6 B.4.1 Conformance as An SCP

...

- 8 — Level 2 (Full). Level 2 conformance indicates that all Type 1, Type 2, and Type 3
10 Attributes defined in the Information Object Definition associated with the SOP
12 Class, **as well as any Standard Extended attributes (including Private**
14 **Attributes) included in the SOP Instance.** will be stored and may be accessed.
The SCP may, but is not required to validate that the Attributes of the SOP Instance meet the requirements of the IOD.
