

DICOM Correction Item

Correction Number		CP 751
Log Summary: Add coding scheme designator for RadLex		
Type of Modification	Name of Standard	
Addition	PS 3.16 2007	
Rationale for Correction		
<p>RadLex is a lexicon intended to enhance communication of radiology information, which has been developed by the RSNA. It currently contains the combined expertise and consensus of sub-specialty radiologists with respect to how to describe radiology findings, and is being extended to also describe radiology procedures. All terms have persistent codes, definitions and clearly defined relationships between them. It is therefore an appropriate to add RadLex as a coding scheme designator and as a source of terms to be used in context groups as appropriate.</p>		
Sections of documents affected		
PS 3.16 Sections 2, 8.		
Correction Wording:		

PS 3.16 Section 2: Add RadLex to normative references:

RadLex **A Lexicon for Uniform Indexing and Retrieval of Radiology Information Resources, RSNA, Chicago 2006. Available at <http://www.radlex.org/>.**

PS 3.16 Section 8: Add RadLex to table of coding schemes:

Table 8-1 Coding Schemes

Coding Scheme Designator	Coding Scheme UID	Description
...
DCM	1.2.840.10008.2.16.4	DICOM Controlled Terminology; PS 3.16 Content Mapping Resource, Annex D
...
<u>RADLEX</u>	<u>2.16.840.1.113883.6.256</u>	<u>RadLex</u>
...
SRT	2.16.840.1.113883.6.5	SNOMED-RT (Referenced Terminology)
