

DICOM Correction Item

Correction Number CP-815	
Log Summary: LV Measurements in RV Context Group	
Type of Modification Modification	Name of Standard PS 3.16 2008
Rationale for Correction: CID 12204 Echocardiography Right Ventricle includes CID 12239 Cardiac Output Properties. However, the concepts of CID 12239 are modeled in SNOMED as children of Left Ventricular Function. New codes for RV measurements are proposed (concepts submitted to SNOMED – Request 3233, codes to be included in July 2008 release).
